PROFILE

I am an experienced full-stack developer with a strong background in multiple programming languages and technologies. I have a proven track record of delivering high-quality software solutions and am dedicated to continuous learning and professional growth. I thrive in collaborative environments and am committed to contributing effectively to my team's success.

WORK EXPERIENCE

Backend Engineer → Full Stack Developer

Mar 2024 - Oct 2024

Bioinsight | US - Remote

- I started as a Backend Engineer, working with Adonis.js and PostgreSQL to build robust APIs and middleware. Created complex SQL queries, wrote unit tests, and implemented cron jobs to streamline processes, achieving a 30% reduction in response time and a 15% drop in database errors. Later, I was promoted to Full Stack Developer, where I integrated Next.js and Material UI on the front end alongside managing backend development and Docker for efficient deployments. Focused on delivering secure, high-performing applications with a seamless user experience.

Frontend Developer

Jan 2024 - Mar 2024

Lineage CRM | US - Remote

- As a front-end developer, I worked on a mobile application using Expo, where I added the website's features to the app. My role involved ensuring the app provided a seamless user experience by replicating and optimizing the website's functionality for mobile users.

Full Stack Developer

Jul 2023 - Dec 2023

Relay Automotive | US - Remote

- As a Full Stack Developer, I worked on the backend using Node.js and Express.js with a MySQL database. I developed and managed APIs to support both web and mobile applications. Additionally, I worked on the website development, ensuring

it was fully functional and aligned with the mobile application. I created a mobile app with the same features as the website and seamlessly integrated the APIs into both platforms, ensuring consistent functionality and user experience across the web and mobile.

Senior Software Developer
DiriDeal | Algeria - Remote

Jun 2021 - Jun 2023

- As a Senior Software Developer, my primary responsibility was typically to provide technical leadership, set the technology strategy, and oversee the overall technology direction of the company. While have expertise in mobile application development, I was working on mobile size, my also role was managing and guiding teams of developers.

Full Stack Developer
Daily Cart | Pakistan

Jan 2020 - Apr 2021

- My primary focus at Daily Cart is mobile development, but I also handle backend tasks when necessary to assist.

Frontend Developer
Systems Avenue | Pakistan

Mar 2019 - Nov 2019

- At Systems Avenue, my main responsibility was on mobile development, particularly in utilizing Firebase services to complete tasks effectively.

PROJECTS

DiriDeal (Mobile application and Backend)

[Android](#), [iOS](#)

- DiriDeal is a mobile app that allows users to buy and sell clothes from their closets. More than just a closet-emptying app, Dirideal is a community of fashion enthusiasts who are making a positive impact on the world through fashion items.
